

John R. Drew DMD — Yuvika Raj Kumar DDS — Joshua John DMD

WE'RE MOVING NEXT DOOR!

Dr. John Drew, Dr. Yuvika Raj Kumar, and Dr. Joshua John are excited to announce we are building a state-of-the-art dental office in the Utopia Plaza next door at 262 Boston Post Road. The new office will have a CBCT machine for taking 3D images, digital x-rays, digital scans, and so much more! It will allow us to provide additional treatment options with up-to-date dental technology.

With our move next door, we also decided that we needed a name encompassing our dedication to patient care and the rich history of Waterford's granite quarries, an industry that fueled Waterford's initial prosperity. We decided that our new name, **Graniteville Dental Solutions**, does just that.

While we may have a new look, we are still the same team of dental professionals providing you with the same high-quality oral healthcare. All of our doctors and hygienists will still provide your dental care while continuing to embrace our core values, and ensuring your treatment is one that is comfortable, informed, and anxiety-free.

We are excited about all of the possibilities this opens up for us to serve you even better!

Dr. Drew, Dr. Kumar, Dr. John
& The Team at Graniteville Dental Solutions
